Part B for Nov. 32

SUBJECT.

A Scheme for the training of Qualified Graduates of the Mysore University in Mining and allied work at the Kolar Gold Fields.

Geol 121-28

REPLY

(To be written on this margin.)

OFFICE OF THE
FIRST MEMBER OF COUNCIL.

NOTE.

Dated 27th June *1929*.

I understand from the Deputy Commissioner, Kolar, that the authorities of the Gold Mining Companies are disposed to take some qualified apprentices and give them trai-ing in all branches of the gold mining industry. A few graduates who have passed with distinction in Geology and Chemistry and who possess the necessary physique for hard work might be selected for training in mining and allied work. The Director of Geology may be requested to consider this matter and send up a full scheme about it. Young men possessing this training would be required by both the Geologiaal and Mining Departments and such of them as cannot be absorbed in these two Departments, may get employment in the Gold Mines themselves.

GOVERNMENT OF MYSORE

Telegraphic Address:—"GEOL." MYSORE GEOLOGICAL DEPARTMENT,

No. 4021-2
Encl. one

Bangalore, 10th March 1930

SECRETARIAT
11/MAR/1930
DEVELOPMENT BRANCH

W. 12/3/30

FROM

P. SAMPAT IYENGAR, ESQ., M.A.,
Director of Geology in Mysore,
Bangalore.

To

N. Rama Rao, Esquire, B.A., B.L.,
Secretary to the Government of His Highness
the Maharaja of Mysore,
Development Departments.

SIR,

In compliance with your letter No.D.617 Geol.121-28-1, I dated 18th July 1929, I beg to submit herewith for the consideration of Government a scheme for the training of qualified graduates of the Mysore University, in Mining and allied work at the Kolar Gold Fields. It is a happy augury that the authorities of the Gold Mining Companies are disposed to take in apprentices and to give them the requisite training. I am sure this will be highly beneficial to the State since prospecting and mining for minerals are on the increase requiring the services of such trained men. Further their services if needed could be utilized with considerable advantage in the Mines Department for Inspection Work and especially when they acquire knowledge in all branches of the Gold Mining Industry. Above all opportunities will be provided for enthusiastic Mysore Graduates to qualify themselves further in mining methods and the like so that they might go forth to take up service abroad and to bring credit to the State. So I warmly welcome the idea of having Mining Apprentices and suggest the following scheme for adoption:-

1) Three Mysore University Graduates - one B.Sc. in Geology one B.E. in Electrical Engineering and one B.E. in Mechanical Engineering - who have passed with distinction to be selected every year to undergo the apprentice course for a period of

two

two years at the Kolar Gold Fields under the direct control of the Superintendent of the Mine where each is attached. They should all be young men of good physique and certified as such by competent Doctors, since work at the Mines is very taxing.

2) They should be styled "Mining Apprentices" and be given a scholarship of Rs.75/- each per month and free quarters or a suitable house rent in lieu thereof.(the K.G.F. living, mining equipment &c. being costly.).

3) As the work underground is likely to involve risk to life, it should be a condition precedent to their entertainment that neither the Mining Companies nor the Mysore Government shall be held responsible for any accidents that might happen during the period of apprenticeship.

4) The apprentices should be informed that there is no obligation on anybody's part to entertain them in service afterwards.

5) The annexure-a Draft Syllabus for the two years course, has been tentatively drawn up. It may be found necessary to modify it to some extent after consultation with the Mining authorities. To avoid complications and to facilitate working arrangements the course is so proposed that when one batch of three apprentices recruited are having the undergroumd training, the subsequent batch selected may have surface training and vice versa.

6) It is desirable to have half yearly examinations (both practical and theoretical) by competent agency to test the progress of each apprentice.

7) Lastly, even if the Mining authorities were to charge any fees for giving the training to such graduates on the lines indicated above, the expenditure is well worth the incurring.

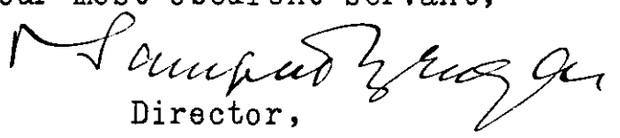
If

If this scheme appeals to Government I have the honour to request that early orders may be passed thereon and necessary provision made in the Budget to take in Mining apprentices during the next official year.

I have the honour to be,

Sir,

Your most obedient servant,



Director,

Mysore Geological Department.

C.N.

Mining Apprentice Course - 2 years.

Draft Syllabus.

1. Underground training - for 12 months, to be divided into two periods of 6 months each, No.2 or No.3 Course coming in between the two periods:-

This is to include the following:-

Timbering in shafts, levels and stopes.

Support of different kinds, such as those of steel, concrete, masonry arches, packing &c. as practised at K.G.F.

Methods of working - Development, stoping.

Underground transport.

Lighting.

Blasting - including drilling, shotfiring &c.

Ventilation.

Winding.

Drainage.

Sinking of shafts.

2. Surface Works - for 3 months.

Ore dressing - crushing, classification, conveyance.

Mineral separation and Milling.

Drawing up of flow-sheet.

Laboratory - Assay and analysis.

3. Surveying - for three months.

General survey of the workings of a mine.

Sectional Levelling.

Filling in of details.

Calculation of results, making of plans and sections.

Connection of surface and underground surveys.

4. For 3 months.

Mineral Survey.

Prospecting, Boring.

Sampling of Ores.

5. For 3 months.

General Workshop practice (Engineering).

Sketching of Mining Machinery.

Mining Laws - Licenses and Leases.

Mining accounts and Mine administration.

Dated, Kolar, the 10th April 1930.

My dear Rama Rao,

I am in receipt of your D.o.letter No:M.11312/Geol. 121-28-3 dated 9th April 1930. With a general strike on hand I do not think it will be desirable for me to approach the - Mining Authorities on the question of apprentices at present.

I have no communication from them as I never addressed them, not having been authorised by the Government to do so. But I have spoken to the Executive Member of Messrs: John Taylor & Sons' Committee ~~and~~ as I have spoken to the Members of Government and the Director of Geology, I was told that the question would receive favourable consideration if opened.

I shall take an early opportunity of opening it afresh and let you know in the matter. For the present, I would suggest that provision be made in the budget for at least three - graduates in Geology, three in Chemistry and three in Civil and Mechanical Engineering to be trained by the Mining Companies from next year.

My dear Rama Rao,

In continuation of my previous letter No:T.C. 147/29-30 dated 10th April 1930, in the matter of the training of some qualified Apprentices by the Gold Mining Companies on the Kolar Gold Field, I send enclosed copy of a letter which I have written to Mr. Nye after personally discussing the matter with him to-day. He stated that the Mines are fully preoccupied with the question of labour - problems on the Kolar Gold Field and that they want some time to consider the scheme and send a reply and further desired that I should write to him in the matter so that he might place it before the Committee. The reply of the Committee may be kindly awaited.

Yours sincerely,

N. B.—Should routine notes be written on small sl ps the notes must be cipoed, or slips pasted on this form.

Copy of letter No:T.C.147/29-30 dated 6th May 1930 from the Deputy Commissioner, Kolar District, to the Chairman and Executive Member, Messrs: John Taylor & Sons' Committee,

O O R G A U M.

With reference to our conversation last year and this day in the matter of the training of some Apprentices in the Gold Mining Companies on the Kolar Gold Fields, I write to enquire - whether it will be convenient ~~to~~ the Companies to take some - qualified Apprentices deputed by the Mysore Government and give them training in all branches of the Gold Mining Industry. It is proposed to depute some graduates in Geology, some in Engineering and some in Chemistry. On hearing from you that the Companies will find it convenient to train such Apprentices, I shall address Government further in the matter.

As I have already informed you the idea is that these Apprentices will undergo training without any liability on the part of the Companies to find them employment. They will be given suitable stipends by the Government and they will be placed under the discipliniary control of the respective Superintendents during the period of their training.
